COMPLETE SET OF THE 1915 PAN PACIFIC COINS IN ORIGINAL COPPER FRAME

- 915 1915 Pan Pacific Set, consisting of two fifty dollar gold pieces, octagonal and round. \$2.50 and \$1.00 in gold, and the half dollar in silver. In the original copper frame as issued at the exposition.

On the basis of the past records of these rare sets this has always proven to be high on the list of blue chip investments. The original cost was 250.00 in 1915 and the last sale of a choice set in frame was at the ANA convention last August in Boston where a dealer paid 6500.00 for the set.

Only 483 sets were sold at the exposition and if an exact count were to be taken of the complete sets in existence we doubt if the figure would reach fifty.

The commemorative \$50 gold pieces are truly beautiful coins and this complete set is just as nice as any we've ever offered. A new record could be established on this set. Worth (7000.00)

U. S. \$4.00 GOLD — STELLAS

THE HISTORY OF THE "STELLA" OR U. S. \$4.00 GOLD PIECES

For the purpose of stimulating foreign trade several attempts have been made from time to time to modify our currency. The Trade Dollar used from 1873 to 1883 to help recover some of the business we lost in China was one attempt. However, in 1867 at a Currency Convention held in Paris the French mint struck a gold coin which had the two values "5 Dollars 25 Francs."

In a spirit of co-operation, the Director of the U. S. Mint ordered the issue of a pattern to correspond to this French coin, and A. C. Paquet designed the U. S. equivalent coin, bearing the head of Liberty on the obverse and "5 Dollar-25 Francs" on the reverse.

COMPLETE SET OF GOLD STELLAS

Congress did not approve the proposed International coin.

The next attempt to introduce an international coinage was based on a desire to increase the convenience of foreign travel. Dana Bickford, in 1874, persuaded the Director of the mint to design a \$10 pattern coin on which was to be inscribed in the center of the coin the weight and fineness in gold, namely "16.72 grams, 900 Fine TEN DOL." The reverse also showed six sections on which was given the value of this coin in terms of currency of six countries (See Adams-Woodin 1370).

Again the Congress did not adopt this coin.

Finally in 1879 the Stella—a \$4 gold piece—was designed.

The Secretary of the Treasury devised the unit Four dollars (or 400 cents) which was close to the value of the French 20 Francs, the Italian 20 Lire, the Spanish 20 Pesetas, the Dutch 8 Florins, the Austrian 8 Florins, and fairly close to the British pound.

The \$4.00 gold piece weighed exactly 7 grams and contained 6 grams gold, 0.3 grams silver, and 0.7 grams copper.

The name "Stella" was chosen for the coin because the star and the eagle are the national emblems on our coins. The word Stella was inscribed on the body of the star.

Charles E. Barber designed the coin in two styles, one with flowing hair, and the other with coiled hair.

COMPLETE SET UNITED STATES FOUR DOLLAR GOLD PIECES

1150 1879 and 1880 \$4.00 Gold. The complete set of four coins, both types, coiled and flowing hair, for both years, struck in gold. Gem Proof Specimens attractively mounted in a custom made plastic case. This is the first such set to be offered at a Public Auction in a great many years. With the constantly increasing demand by collectors and investors to own a "Stella" here is the once in a Lifetime opportunity for some fortunate bidder to own a complete set. There could only be ten such sets in existence and possibly this is the only set still available.

We are not being over enthusiastic when we state that this set will realize close to (50,000)

THE EXCESSIVELY RARE HALF EAGLE OF 1828

- 1171 1828 Perfect Date Variety. Brilliant Semi-Proof, Sharp with raised borders and just about equal to a Perfect Brilliant Proof. While the limelight has been directed on the Great Rarity of the 1815, 1819 and 1822 Half Eagles, and justly so, the excessive rarity of the 1828 Half Eagle, and a few of the other extremely rare dates in the Half Eagles of the 1820's, has been overlooked. The record of the 1828 Half Eagle is just as impressive and proves it to be just as rare as the 1819 and almost as rare and valuable as the 1815. In 1906 the H. Smith Sale had both varieties. A year later another overdate was sold in the Stickney Sale. Not until 1922, in the Ten Eyck Collection, when an extremely fine specimen was sold, had any been sold. From 1922 down to the present time, there have been few of this date changing hands. No new specimens have come to light. It is our opinion that just as few, if not fewer, 1828 Half Eagles have been offered than were offered of the 1815 and of the 1819. (We recently sold an 1819 Half Eagle and know of one other changing hands last year.) Of the 6 or 7 known, this ranks with the best. Difficult to estimate the value but should sell for well over (5000.00)

THE EXCESSIVELY RARE HALF EAGLE OF 1832

- 1172 1832 Thirteen Star Variety. Square-Based 2. Brilliant Uncirculated, sharp with raised borders, almost a wire edge on obverse. One of the finest of the 8 or 9 known, and compares favorably with the 1815, 1819 and 1828 in rarity. Valued at (4500.00)

THE VERY SCARCE 1861 PAQUET TWENTY

- 1359 1861-S A. C. Paquet reverse (tall letters) the rarest San Francisco mint \$20 gold coin and one of the scarcest of the entire U. S. Gold Series. Only 2 pieces are known from the Philadelphia Mint. The order to cease using the die was given when the Director of the Philadelphia Mint noted that the reverse die was too wide and the borders too narrow. The dies were already being used by the San Francisco Mint before word reached him not to strike any coins with the paquet reverse. 76 years after they were struck the first "s" mint specimen was discovered and was sold to a distinguished collector for 5000.00. The condition was "Very Fine". In the past 23 years a few more have been discovered. The coin offered here is one of the nicest known and slightly sharper than the specimen which sold in our sale last year at 3500.00. In our estimation this coin should realize a record price of over (4000.00)

This coin is strictly very fine. Few light scratches and bag marks and in checking over the auction records over the years this certainly is one of the nicest known. Consider this, the famous Dunham Collection which offered such rarities as the 1822 \$5 and many other outstanding rarities did not contain the 1870-CC \$20. Worth over (4500.00)

THE EXCEEDINGLY RARE AND BEAUTIFUL EXTRA HIGH RELIEF
1907 ST. GAUDENS TWENTY DOLLAR GOLD PIECE

- 1417 MCMVII (1907) The first variety of the new type double eagle by the world famous sculptor Augustus Saint Gaudens. This first type, struck in extra high relief, quite a bit thicker than the regular issue. The relief is much higher and the design so concave that the word LIBERTY and the stars on obverse and the legend on reverse are partly at an angle. Extremely high wire edge. A magnificent gem and the true treasure of this auction. Words and pictures cannot do justice to this beautiful coin.

For years it had been thought that 16 specimens were struck, however, the owner of this coin had the original envelope the coin was presented in and it stated "ONE OF THE 13 STRUCK."

The background leading up to the famous coin is interesting. In 1905 Saint Gaudens discussed with President Roosevelt the beauty of the high relief coins of Ancient Greece and President Roosevelt requested that Saint Gaudens prepare designs for the New Gold Coins.

The great sculptor produced a design recognized as the most beautiful this country has ever produced.

This specimen is the third to be offered at auction and considering the rarity and increased value it is destined, of course, to set a new record. It certainly will be a most gratifying possession to the fortunate buyer of this gem. Worth (25,000.00)

U. S. GOLD PROOF SETS

1879 PROOF SET COMPLETE

Gold, Silver and Copper

1453 1879 Proof set consisting of the \$20, \$10, \$5, \$4 (flowing hair) \$3, \$2.50 and \$1.00 Gold; Trade Dollar, Morgan Dollar, Half Dollar, Quarter, Dime, Nickel, Three Cent Nickel, and Cent. A Very Choice Set in custom made cabinet. The gold proofs are magnificent specimens, especially the \$20, \$4 Stella, the \$5 and \$2.50. The \$10 shows couple faint hairlines and the \$3 trifle rubbed on high points. Silver Coins lightly tarnished. There could only be 30 complete sets in existence. In all probabilities there are only two or three similar sets remaining in the hands of collectors. If we had a set in stock we would readily ask 10,000.00 for it.

COMPLETE 1907 GOLD PROOF SET

1454 \$20, \$10, \$5 and \$2.50 of 1907. The \$20 has a few faint hairlines, balance of set flawless. This is a very scarce group and we doubt if there are a dozen such sets in existence. In our sale of last year a similar group sold individually for a total of 2680.00. We estimate this set will realize over (3000.00)

CHARLOTTE MINT GOLD SET

1849-1861

1460 For the first time at any Public Auction it is our distinct pleasure to offer the set, lacking only one coin, as a Unit. Many years, as well as a great deal of money, was spent in assembling this Rare Group and the consignor wishes to save some fortunate buyer the time of looking, improving and assembling the group. The set consists of the 8 Gold Dollars, 18 Quarter Eagles, and 23 Half Eagles. The condition of these coins are from Very Fine to Uncirculated. They are mounted all in one custom made case appropriately lettered, with space allowed for the 1855 \$2.50. The only coin this set lacks.

The exact dates are as follows:

\$1.00						
1849	1850	1851	1852

THE LICHTENFELS FRACTIONAL CURRENCY COLLECTION

It is with great pride that we present the following, which for many years was the highlight of Mr. Lichtenfels' collection. As most of the old time dealers recall, this fine gentlemen bid at all the sales and over a period of years put together this outstanding group. There have been only a few sales in the past years that contained nice Fractional Currency and this collection ranks with the best.

The notes are listed according to Robert Friedberg's "Paper Money of the United States" and further research on this series may be obtained by careful study of earlier works by Valentine, Dr. Limpert, and Wayne Raymond.

Fractional Currency has steadily risen in popularity over the years and now on the threshold of the 100th anniversary of the war between the states these notes will be even more in demand and we suggest bids close to our estimates.

THIRD SESSION

SATURDAY MORNING, FEBRUARY 18, 1961

LOTS 1651-2350 - 10:00 A.M.

GOLD COIN PRICES

Prices between September and December 1960 have risen to unheard of heights in Europe. The Glendining, Adolph Hess, J. Schulman and other sales have surpassed Friedberg's prices in many occasions. Only those gold coins **unlisted in Friedberg** are still selling for low prices and far below their values. In many instances a coin not in Friedberg is either a rarity or a trial or pattern issue - in all cases a real rarity - and good investment. This auction has many **Unlisted in Friedberg** items. In your own interest - **BUY THE COINS NOT LISTED IN FRIEDBERG TODAY**. They will be worth much more tomorrow.

Please Note: (Some will be included in a new Friedberg edition at much higher values than priced today).

CANADA

- 1817 **French rule.** Louis d'or 1721 of Louis XV. Type of Friedberg (France) page 99. 200 (\$100). Friedberg lists as date for France 1720 and 1722 because 1721 was struck for Canada by the French John Law Company. Many experts do not consider these Canadian coins but in our research with the Curator of the Museum on the Island of St. Louis in Montreal, we came to a definite conclusion that this is Canadian money. Shortt in his "Archives", "Change and Finance" explains the background of these coins. Bust is V. F., rev: is V. F. but lettering on left side rubbed off. Still a very attractive coin. (175.00)
- 1818 **The 1726 issue of Louis d'or** of the type of Fr. p. 99. 205 (\$50) although not specifically struck for Canada like 1721 - this coin circulated there. (100.00)

AUREUS MAGNUS AND OTHER SERIES

The large 10 ducat pieces with beautiful engravings struck in the Aureus Magnus series are not just fantasy or medallic coins. Therefore the pieces offered here are not obtainable at "Aureus Magnus" and are rare. All of the pieces are with beautiful engravings - matt. or brill. proof. Several pieces have been listed before under Paris, lot 1928; Egypt 1900; Saar 1969; and many more to follow dispersed in the catalogue.

RARE THAILAND GOLD COINS

This beautiful 100 tical (Siamese) gold coin was minted by the Thai Government when the possibility of invasion seemed imminent. This was done to salvage the dwindling gold resources. After the "crisis" was over, most of these coins were remelted by the Government and very few still exist. This very rare gold coin weighs over 5½ ozs. Should bring record price.
